Tasty Tales Frank Brennan, 2015

Experiences in Translation Umberto Eco, 2008-01-01 In this book Umberto Eco argues that translation is not about

comparing two languages, but about the interpretation of a text in two different languages, thus involving a shift between cultures. An author whose works have appeared in many languages, Eco is also the translator of Gérard de Nerval's *Sylvie* and Raymond Queneau's *Exercices de style* from French into Italian. In *Experiences in Translation* he draws on his substantial practical experience to identify and discuss some central problems of translation. As he convincingly demonstrates, a translation can express an evident deep sense of a text even when violating both lexical and referential faithfulness. Depicting translation as a semiotic task, he uses a wide range of source materials as illustration: the translations of his own and other novels, translations of the dialogue of American films into Italian, and various versions of the Bible. In the second part of his study he deals with translation theories proposed by Jakobson, Steiner, Peirce, and others. Overall, Eco identifies the different types of interpretive acts that count as translation. An enticing new typology emerges, based on his insistence on a common-sense approach and the necessity of taking a critical stance.

The Dogs Allan Stratton, 2016-02 Now in paperback--the internationally acclaimed psychological thriller from Governor General's Award nominee Allan Stratton. What's hiding in the night? What's buried in the past? Are there dark secrets to uncover, or is Cameron's own mind playing tricks on him? In *The Dogs*, acclaimed author Allan Stratton manages to deliver at once a page-turning thriller and a powerful exploration of the realities of domestic violence and its after-effects.

Zanardi Andrea Pazienza, 2017-05-31 In this graphic novel, presented in English for the first time, the Italian "Crumb" portrays a lost generation of late 1970s/early 1980s teenagers coping with family problems, school, sex, and drugs. A true visionary, with a fluid line and an uncanny sense of color and composition, Pazienza's innovative graphic style served up stories that were iconoclastic, outrageous, humorous, and deeply personal, often based on himself and his microcosm of friends and collaborators. Pazienza was a revolutionary cartoonist who ushered an underground sensibility to Italian and European comics, breaking from the more staid tradition of genteel adult (and children's) graphic albums.

The End of Our Time Nikolai Berdyaev, 2009 This book is the philosophical fruit of Nikolai Berdyaev's first-hand experience of, and reflections on, the crisis of European civilization in the aftermath of the Great War and the Russian Revolution. Berdyaev tells us that the modern age, with its failed Humanism, is being replaced by a new epoch: the new middle ages, an epoch of darkness, an epoch of the universal night of history. Berdyaev asserts that this night is a good thing: in this darkness, which is a return to the mysterious life of the spirit, the destruction inflicted by the previous period of light will be healed: Night is not less wonderful than day; it is equally the work of God; it is lit by the splendor of the stars and it reveals to us things that the day does not know. Night is closer than day to the mystery of all beginning (pp. 70-71, present

volume).

Leonardo and the Death Machine Robert J. Harris, 2005 Thriller set against the backdrop of Renaissance Italy. background of Renaissance Italy. However, the Leonardo of the title is in fact Leonardo da Vinci. This is a totally fictional adventure, but it COULD have happened. Florence. But although he yearns to be a great artist himself, he's rather disillusioned with his apprenticeship, which has made him more of an errand boy than an art student. Then, when an impromptu street football match ends in an arm injury for his friend Sandro (whom history will know as Botticelli), Leonardo leaps at the opportunity to help out the unfortunate painter who has been commissioned to paint a portrait for the rich Medici family. Little does our young hero know that soon he will be dragged into murder and intrigue, and will be fleeing for his life

Borges at Eighty: Conversations Jorge Luis Borges, 2013-06-26 A collection of interviews now available from New Directions for the first time The words of a genius: Borges at Eighty transcends our expectations of ordinary conversation. In these interviews with Barnstone, Dick Cavett, and Alastair Reid, Borges touches on favorite writers (Whitman, Poe, Emerson) and familiar themes — labyrinths, mystic experiences, and death — and always with great, throw-away humor. For example, discussing nightmares, he concludes, "When I wake up, I wake to something worse. It's the astonishment of being myself."

The Republic of St. Peter Thomas F. X. Noble, 2010-08-03 The Republic of St. Peter seeks to reclaim for central Italy an important part of its own history. Noble's thesis is at once original and controversial: that the Republic, an independent political entity, was in existence by the 730s and was not a creation of the Franks in the 750s. Noble examines the political, economic, and religious problems that impelled the central Italians—and a succession of resolute popes—to seek emancipation from the Byzantine Empire. He delineates the social structures and historical traditions that produced a distinctive political society, describes the complete governmental apparatus of the Republic, and provides a comprehensive assessment of the Franco-papal alliance.

The Dark Lady Irene Adler (Fictitious character), Alessandro Gatti, Pierdomenico Baccalario, 2014 A trio of not-yet-famous young detectives must solve what appears to be a mysterious murder.

The Woman of Mystery Maurice Leblanc,2015-05-01 In this pulse-pounding murder mystery from Arsene Lupin creator Maurice Leblanc, a chance encounter irrevocably alters the course of one man's life, and the early twentieth-century tensions between France and Germany boil over. The Cube and the Face Georges Didi-Huberman,2015 This monograph of French art theorist and philosopher Georges Didi-Huberman centers around a single sculpture: Alberto Giacometti's Cube from 1934 (Kunsthaus Zurich), possibly his most peculiar and atypical creation, being his only abstract sculptural work within a wider oeuvre, which consistently had the exploration of reality as its main objective. By conducting a meticulous formal analysis of the sculpture, and consulting sketches, etchings, other sculptural works and texts of Giacometti originating from 1932 to 1935, the formative years of Cube, Didi-Huberman unwinds a net of questions, hypotheses, and historical contextualizations in which he envelops his investigation to unfold for the reader a wide spectrum of new perspectives. Cube, as it turns out, marks an exception. It is a self-containing work, barred from any stylistic kinship and functions prismatically at the same time, delineates Giacometti's transition from his surrealist to his realist phase and thus contains in nuce principles which underlie his entire aesthetic understanding: the relation of the body to geometry, the problem of dimensionality, the separation between face and skull, the question of the portrait, which, in regards to this sculpture, prompts Didi-Huberman to develop the new notion of an abstract anthropomorphism. Referencing the works of Freud, Bataille, Leiris and Carl Einstein, which had a lasting influence on Giacometti as well, this study presents the reader with an exuberant plurality of methodological approaches and readings. Out of a newly arising sensibility for a formal analysis, Didi-Huberman develops his very own anthropological perspective on the notion of the image.

Nature Embodied Anthony Corbeill,2018-06-05 Bodily gesture. A Roman worshipper spins in a circle in front of a

temple. Faced with death, a Roman woman tears her hair and beats her breasts. Enthusiastic spectators at a gladiatorial event gesticulate with thumbs. Examining the tantalizing glimpses of ancient bodies offered by surviving Roman sculptures, paintings, and literary texts, Anthony Corbeill analyzes the role of gesture in medical and religious ritual, in the gladiatorial arena, in mourning practice, in aristocratic competition of the late Republic, and in the court of the emperor Tiberius. Adopting approaches from anthropology, gender studies, and ecological theory, *Nature Embodied* offers both a series of case studies and an overarching narrative of the role and meanings of gesture in ancient Rome. Arguing that bodily movement grew out of the relationship between Romans and their natural, social, and spiritual environment, the book explores the ways in which an originally harmonious relationship between nature and the body was manipulated as Rome became socially and politically complex. By the time that Tacitus was writing about the reign of Tiberius, the emergence of a new political order had prompted an increasingly inscrutable equation between truth and the body--and something vital in the once harmonizing relationship between bodies and the world beyond them had been lost. *Nature Embodied* makes an important contribution to an expanding field of research by offering a new theoretical model for the study of gesture in classical times.
