International Gear Conference 2014: 26th-28th August 2014, Lyon Philippe Velez,2014-09-18 This book presents papers from the International Gear Conference 2014, held in Lyon, 26th-28th August 2014. Mechanical transmission components such as gears, rolling element bearings, CVTs, belts and chains are present in every industrial sector and over recent years, increasing competitive pressure and environmental concerns have provided an impetus for cleaner, more efficient and quieter units. Moreover, the emergence of relatively new applications such as wind turbines, hybrid transmissions and jet engines has led to even more severe constraints. The main objective of this conference is to provide a forum for the most recent advances, addressing the challenges in modern mechanical transmissions. The conference proceedings address all aspects of gear and power transmission technology and range of applications (aerospace, automotive, wind turbine, and others) including topical issues such as power losses and efficiency, gear vibrations and noise, lubrication, contact failures, tribo-dynamics and nano transmissions. - A truly international contribution with more than 120 papers from all over the world - A judicious balance between fundamental research and industrial concerns - Participation of the most respected international experts in the field of gearing - A wide range of applications in terms of size, power, speed, and industrial sector

**AMERICAN INTERNATIONAL LAW CASES Fourth Series 2009 VOLUME 3** ,2011-01-06 AILC is an annual case law reporter that provides the full text of U.S. court opinions involving international law issues. The courts covered include all U.S. federal district courts, federal appellate courts, and the U.S. Supreme Court, as well as some state courts, the U.S. Court of Claims, the U.S. Court of International Trade, and the U.S. Tax Court. The series seeks to provide not every single case in which a court refers to international law but rather all cases that analyze at least one international law issue in depth. The list of subjects addressed by these volumes is vast and changes from year to year, with the inclusion and prominence of most topics turning on their prevalence in a given year's jurisprudence. Some consistently prominent topics are personal jurisdiction over foreign defendants, deportation procedure, and double taxation. Over the last three editions (2006, 2007, and 2008), many topics have developed rapidly and constitute a correspondingly larger portion of the volumes, particularly Terrorism, the Foreign Sovereign Immunities Act, Forum Non Conveniens, and an entirely new, added topic: the National Security Exception (to deportation eligibility). The 2008 edition of AILC also features expanded sections on family law and on the detention of terrorist suspects. The U.S. war on terror and the crisis at Guantanamo have made that last topic a significant and dynamic component of AILC. Each edition of AILC also comes framed with two practical resources for students and scholars. The first is an introductory editor's note that both reviews international law's major developments for the given year and explains to readers how to use the volumes. The second is a subject index to allow for targeted research. The cases in Volume Three of AILC cover procedural aspects, including jurisdictional questions, forum non conveniens, choice of law, and discovery. The issue in *Capital Ventures International v. Republic of Argentina* was whether the Republic of Argentina explicitly waived its sovereign immunity from suit in the United States as to claims relating to bonds issued by Argentina under German law. The court found that there was subject matter jurisdiction over the claims relating to the German bonds because Argentina explicitly waived its sovereign immunity to suit in United States courts on those claims. In *Aguas Lenders Recovery Group LLC v. Suez, S.A., Sociedad General de Aguas de Barcelona, S.A., Agua y Saneamientos Argentinos, S.A.*, the issue was whether, for the purposes of the doctrine of forum non conveniens, a non-signatory to an agreement may be bound by a forum selection clause and forum non conveniens waiver contained in contracts entered into by an entity alleged to be a predecessor in interest. The court held that such a non-signatory may be bound.
